DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Halloran (US Patent 3,593,709). Halloran discloses a bone plate having a first and second (41 and 43) extending portions (see Fig. 3) disposed at an angle, and a screw extending through a hole in the first or second portions (37/39) or where there is an intermediate portion of the screw between the two extending portions (53). The screw spans the angle. The plate also has a plurality of holes, is capable of being in at least slight compression when subject to the tightened screw. The edge of the plate may also function at least as a blade portion.

Response to Arguments

Applicant's arguments with respect to claims 1-7 have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

Claims 14-16 and 41-43 are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP
